

Lead Installer

Job description

Mack Morris Heating and Air Conditioning has been in business since 1985. We are still growing, and we are looking for a few good people wanting to grow with us.

- Will be working in residential homes. Must be able to pass drug screen, clean driving record, work occasional Saturdays during busy times. Must be able to lift 75+ pounds, crawl/bend frequently. 1-3 years HVAC installation experience. Overhead work required. Work in small places such as attics and crawlspaces.
- Excellent problem-solving skills and mechanical aptitude.
- Understanding of both low and high voltage electrical wiring.
- Ensure connection of gas lines to heating equipment is properly done.
- Understanding of refrigeration; brazing and pressure/temperature readings.
- Ability to install furnaces, air handlers indoor coil, complete duct systems, uv lights, air cleaners and humidifiers. Experience with Duct less heat pumps is a plus but not required, we will train.
- Have a valid Driver's license and clean driving record.
- Own hand tools for the position.
- Must be able to work as a team and put the customer first.
- Good communication skills.
- Have a well-groomed appearance, adhere to company dress code and be self-motivated.
- Punctuality and regular attendance is a must.
- High school diploma or equivalent.
- Apprenticeship program access is available.
